First Regular Session of the 123rd General Assembly (2023)

PRINTING CODE. Amendments: Whenever an existing statute (or a section of the Indiana Constitution) is being amended, the text of the existing provision will appear in this style type, additions will appear in this style type, and deletions will appear in this style type. Additions: Whenever a new statutory provision is being enacted (or a new constitutional provision adopted), the text of the new provision will appear in this style type. Also, the word **NEW** will appear in that style type in the introductory clause of each SECTION that adds a new provision to the Indiana Code or the Indiana Constitution.

Conflict reconciliation: Text in a statute in *this style type* or *this style type* reconciles conflicts between statutes enacted by the 2022 Regular Session of the General Assembly.

M

SENATE BILL No. 414

A BILL FOR AN ACT to amend the Indiana Code concerning environmental law.

Be it enacted by the General Assembly of the State of Indiana:

SECTION 1. IC 13-11-2-7.2 IS ADDED TO THE INDIANA
CODE AS A NEW SECTION TO READ AS FOLLOWS
[EFFECTIVE JULY 1, 2023]: Sec. 7.2. "Alternative residential
onsite sewage system", for purposes of IC 13-18-28, has the
meaning set forth in IC 13-18-28-1.
SECTION 2. IC 13-11-2-25.8, AS AMENDED BY P.L.160-2021,
SECTION 1, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE
JULY 1, 2023]: Sec. 25.8. (a) For purposes of IC 13-18:

- (1) "Class I wetland" means an isolated wetland described by one (1) or both of the following:
 - (A) At least fifty percent (50%) of the wetland has been disturbed or affected by human activity or development by one (1) or more of the following:
 - (i) Removal or replacement of the natural vegetation.

ру

1	(ii) Modification of the natural hydrology.	
2	(B) The wetland supports only minimal wildlife, or aquatic	
3	habitat, or and hydrologic function because the wetland	
4	does not provide critical habitat for threatened or	
5	endangered species listed in accordance with the	
6	Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.)	
7	and the wetland is characterized by at least one (1) of the	
8	following:	
9	(i) The wetland is typified by low species diversity.	
10	(ii) The wetland contains greater than fifty percent	
11	(50%) areal coverage of non-native invasive species of	
12	vegetation.	
13	(iii) The wetland does not support significant wildlife	
14	or aquatic habitat.	
15	(iv) The wetland does not possess significant	IV
16	hydrologic function;	
17	(2) "Class II wetland" means an isolated wetland that supports	
18	moderate habitat or and hydrological functions, including an	
19	isolated wetland that is dominated by native species but is	
20	generally without:	
21	(A) the presence of; or	
22	(B) habitat for;	
23	rare, threatened, or endangered species; and	
24	(3) "Class III wetland" means an isolated wetland:	
25	(A) that is located in a setting undisturbed or minimally	
26	disturbed by human activity or development and that	
27	supports more than minimal wildlife or aquatic habitat or	
28	hydrologic function; or and	
29	(B) that is of one (1) of the following rare and ecologically	
30	important types:	
31	(i) Acid bog.	
32	(ii) Acid seep.	
33	(iii) Circumneutral bog.	
34	(iv) Circumneutral seep.	
35	(v) Cypress swamp.	
36	(vi) Dune and swale.	
37	(vii) Fen.	
38	(viii) Forested fen.	
39	(ix) Forested swamp.	
40	(x) Marl beach.	
41	(xi) Muck flat.	
42	(xii) Panne.	

1	(xiii) Sand flat.	
2	(xiv) Sedge meadow.	
3	(xv) Shrub swamp.	
4	(xvi) Sinkhole pond.	
5	(xvii) Sinkhole swamp.	
6	(xviii) Wet floodplain forest.	
7	(xix) Wet prairie.	
8	(xx) Wet sand prairie.	
9	(b) For purposes of this section, a wetland or setting is not	
10	considered disturbed or affected as a result of an action taken after	
11	January 1, 2004, for which a permit is required under IC 13-18-22 but	
12	has not been obtained.	
13	SECTION 3. IC 13-11-2-218.3 IS ADDED TO THE INDIANA	
14	CODE AS A NEW SECTION TO READ AS FOLLOWS	
15	[EFFECTIVE JULY 1, 2023]: Sec. 218.3. "Standard septic system",	
16	for purposes of IC 13-18-28, has the meaning set forth in	
17	IC 13-18-28-2.	
18	SECTION 4. IC 13-18-12-3, AS AMENDED BY P.L.159-2011,	
19	SECTION 26, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE	
20	JULY 1, 2023]: Sec. 3. (a) The board shall initiate, in accordance with	
21	IC 13-15, a septage management permit program for all persons who	
22	offer to perform or are performing septage management services.	
23	(b) A permit from the department may not be required for the	
24	ownership or operation of one (1) or more holding tanks described	
25	in IC 16-41-25-9 in which septage originating from a residential or	
26	commercial source is held until it is removed and transported from	
27	the site of the holding tanks by septage management vehicles.	
28	However:	
29	(1) the board may adopt rules under IC 4-22-2 and	
30	IC 13-14-9; or	
31	(2) the department may establish guidelines;	
32	concerning the reports to be provided to the department by local	
33	health departments under IC 16-41-25-9(h). The rules or guidelines	
34	may specify the content to be included in the reports and the	
35 36	frequency at which the reports must be provided. SECTION 5. IC 13-18-28 IS ADDED TO THE INDIANA CODE	
37		
38	AS A NEW CHAPTER TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]:	
39	Chapter 28. Alternative Residential Onsite Sewage Systems	
40	Sec. 1. As used in this chapter, "alternative residential onsite	
1 0 41	sewage system" means a system that:	
+1 42	(1) is designed for the collection, storage, treatment, and	
τ∠	(1) is designed for the confection, storage, treatment, and	

1	disposal of sewage from the dwelling of one (1) or two (2)	
2	families;	
3	(2) is installed in a place that, because of soil type, space	
4	restrictions, or another reason, is not suitable for a standard	
5	septic system;	
6	(3) is a replacement for a standard septic system that was in	
7	place in the same site but did not function properly;	
8	(4) is based on a design or plan approved by the National	
9	Sanitation Foundation;	
10	(5) employs advanced treatment components not used in	
11	standard septic systems, including a disinfection component	
12	that uses chlorine, ultraviolet light, or ozone to reduce the	
13	concentration of the pathogenic constituents of the effluent	
14	to an acceptable level before it is discharged;	
15	(6) discharges the treated effluent above ground; and	
16	(7) because of its design and components, requires more	
17	frequent testing and maintenance than a standard septic	
18	system.	
19	Sec. 2. As used in this chapter, "standard septic system" means	
20	a system that:	
21	(1) is designed for the treatment and disposal of wastewater	
22	from a residence; and	
23	(2) consists of:	
24	(A) a septic tank in which organic matter is digested;	
25	and	
26	(B) a drainfield in which the effluent is slowly released	
27	into the soil.	
28	Sec. 3. (a) The environmental rules board shall, under	
29	IC 4-22-2 and IC 13-14-9, adopt rules, including emergency rules	
30	adopted in the manner provided by IC 4-22-2-37.1, concerning	
31	alternative residential onsite sewage systems. Notwithstanding	
32	IC 4-22-2-37.1(g), the emergency rules that are adopted under this	
33	subsection and in the manner provided by IC 4-22-2-37.1 expire on	
34	the date on which rules that supersede the emergency rules are	
35	adopted by the board under this subsection and IC 4-22-2-24	
36	through IC 4-22-2-36.	
37	(b) The rules adopted under this section must establish:	
38	(1) standards and specifications for alternative residential	
39	onsite sewage systems;	
40	(2) effluent limitations for alternative residential onsite	
41	sewage systems that are necessary to ensure that the effluent	_
42	discharged from those systems does not pose an	
	·	

1	unreasonable risk to human health or the environment;	
2	(3) minimum qualifications for individuals or entities that	
3	install and maintain alternative residential onsite sewage	
4	systems, including the requirement that the individuals	
5	receive training provided or approved by a manufacturer of	
6	alternative residential onsite sewage systems or of	
7	components used in alternative residential onsite sewage	
8	systems; and	
9	(4) requirements for the inspection, maintenance, testing,	
.0	service, and repair of alternative residential onsite sewage	
.1	systems, including:	
.2	(A) the establishment or adoption of mandatory	
.3	inspection and maintenance procedures;	
.4	(B) requirements as to when and how often the	
.5	mandatory inspection and maintenance procedures	
.6	must be performed;	
.7	(C) a requirement that effluent discharged from an	
.8	alternative residential onsite sewage system be:	
9	(i) sampled at least once every three (3) months;	
20	and	
21	(ii) tested in a laboratory approved by the	
22	department under the rules to ensure that the	
22 23 24 25	effluent complies with the effluent limitations	
24	established under subdivision (2); and	
	(D) a requirement that the service or repair of an	
26	alternative residential onsite sewage system, if needed,	
27	be performed by an individual or entity meeting the	
28	qualifications established by the board in the rules.	
29	Sec. 4. Not more than sixty (60) days after the rules adopted	
30	under section 3 of this chapter take effect, the commissioner or the	
31	department shall issue a National Pollution Discharge Elimination	
32	System general permit in accordance with 40 CFR 122.26 that	
33	authorizes the installation and use of alternative residential onsite	
34	sewage systems.	
35	SECTION 6. IC 16-20-10 IS ADDED TO THE INDIANA CODE	
36	AS A NEW CHAPTER TO READ AS FOLLOWS [EFFECTIVE	
37	JULY 1, 2023]: Chapter 10. Alternative Residential Onsite Servege Systems	
88	Chapter 10. Alternative Residential Onsite Sewage Systems	
39 10	Sec. 1. As used in this chapter, "alternative residential onsite	
ŀ0 ŀ1	sewage system" has the meaning set forth in IC 13-18-28-1.	
12	Sec. 2. (a) If: (1) an application is submitted to a local health department	
r ∠	(1) an approaction is submitted to a local health department	

1	for a permit for a residential onsite sewage system;	
2	(2) the plans for the residential onsite sewage system:	
3	(A) provide for the system to be an alternative	
4	residential onsite sewage system; and	
5	(B) meet the standards and specifications for alternative	
6	residential onsite sewage systems established in the rules	
7	adopted under IC 13-18-28-3;	
8	(3) the applicant affirms in writing that:	
9	(A) the alternative residential onsite sewage system will	
10	be installed by an individual or entity that meets the	
11	minimum qualifications for alternative residential onsite	
12	sewage system installers that are established in the rules	
13	adopted under IC 13-18-28-3;	
14	(B) the alternative residential onsite sewage system will	
15	be maintained:	
16	(i) by individuals or entities that meet the minimum	
17	qualifications for performers of maintenance on	
18	alternative residential onsite sewage systems that	
19	are established in the rules adopted under	
20	IC 13-18-28-3; and	
21	(ii) in accordance with the periodic maintenance	
22	schedule and other requirements established by the	
23	rules adopted under IC 13-18-28-3; and	
24	(C) effluent discharged from the alternative residential	
25	onsite sewage system will be:	
26	(i) sampled at least once every three (3) months;	
27	and	
28	(ii) tested in a laboratory approved by the	
29	department of environmental management;	
30	according to the rules adopted under IC 13-18-28-3;	
31	(4) the installation and operation of the alternative	
32	residential onsite sewage system are covered under the	
33	general permit for the installation and use of alternative	
34	residential onsite sewage systems that is issued under	
35	IC 13-18-28-4; and	
36	(5) the permit applicant has filed an affidavit concerning the	
37	alternative residential onsite sewage system for recording in	
38	the county recorder's office of the county as required by	
39	section 3 of this chapter;	
40	the local health department shall grant the permit.	
41	Sec. 3. (a) A person applying to a local health department for	_
42	a permit for an alternative residential onsite sewage system must	

1	file an affidavit for recording in the county recorder's office of the	
2	county.	
3	(b) The affidavit filed under this section must:	
4	(1) be filed in the deed records of the county;	
5	(2) state that an application for an alternative residential	
6	onsite sewage system has been submitted to the local health	
7	department;	
8	(3) state that the alternative residential onsite sewage system,	
9	if constructed or installed in the property to which the	
10	affidavit relates, will be subject to continuing inspection,	
11	maintenance, and testing requirements under the rules of the	
12	environmental rules board as long as the residential onsite	
13	sewage system is in use, regardless of any transfer of	
14	ownership of the property;	
15	(4) clearly provide notice to any prospective transferee of the	
16	property to which the affidavit relates that the prospective	
17	transferee will be subject to the requirements described in	
18	subdivision (3) after the transfer of the property to the	
19	prospective transferee; and	
20	(5) state that the failure of a property owner to satisfy the	
21	continuing inspection, maintenance, and testing	
22	requirements or to remedy a problem with the alternative	
23	residential onsite sewage system may lead to, or may already	
24	have been the cause of, the imposition of a lien against the	
25	property.	
26	(c) The owner of the property to which an affidavit recorded	
27	under this section relates may have the affidavit removed from the	
28	deed records of the county if:	
29	(1) the alternative residential onsite sewage system:	
30	(A) is not constructed or installed in the property to	
31	which the affidavit relates; or	
32	(B) is constructed or installed but:	
33	(i) the alternative residential onsite sewage system	
34	is removed from the property; or	
35	(ii) use of the alternative residential onsite sewage	
36	system is permanently ended; and	
37	(2) any lien imposed against the property under section 5 of	
38	this chapter is released and discharged.	
39	(d) The county recorder may charge a reasonable fee for:	
40	(1) the recording of an affidavit; and	
41	(2) the removal of an affidavit from the deed records of the	
42	county;	

Sec. 4. A permit issued by a local health department for an alternative residential onsite sewage system is subject to the following conditions: (1) The alternative residential onsite sewage system must be constructed in compliance with the rules adopted by the environmental management board under IC 13-18-28-3. (2) The alternative residential onsite sewage system must be operated and maintained in compliance with the rules adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair work under the rules adopted by	1	under this section.	
following conditions: (1) The alternative residential onsite sewage system must be constructed in compliance with the rules adopted by the environmental management board under IC 13-18-28-3. (2) The alternative residential onsite sewage system must be operated and maintained in compliance with the rules adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	2	Sec. 4. A permit issued by a local health department for an	
(1) The alternative residential onsite sewage system must be constructed in compliance with the rules adopted by the environmental management board under IC 13-18-28-3. (2) The alternative residential onsite sewage system must be operated and maintained in compliance with the rules adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	3	alternative residential onsite sewage system is subject to the	
constructed in compliance with the rules adopted by the environmental management board under IC 13-18-28-3. (3) If an inspection of the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	6	constructed in compliance with the rules adopted by the	
operated and maintained in compliance with the rules adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, inspection, maintenance, testing, service or repair the inspection, maintenance, testing, service or repair	7	environmental management board under IC 13-18-28-3.	
adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, inspection, maintenance, testing, service or repair the inspection, maintenance, testing, service or repair	8	(2) The alternative residential onsite sewage system must be	
adopted by the environmental management board under IC 13-18-28-3, including the requirements of the rules concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, inspection, maintenance, testing, service or repair the inspection, maintenance, testing, service or repair	9	operated and maintained in compliance with the rules	
concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	10		
concerning: (A) mandatory inspection and maintenance; and (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	11	IC 13-18-28-3, including the requirements of the rules	
14 (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. 17 (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. 11 (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	12		
18 (B) the sampling and testing of effluent discharged from an alternative residential onsite sewage system at least once every three (3) months. 17 (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. 11 (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	13	(A) mandatory inspection and maintenance; and	
once every three (3) months. (3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	14	(B) the sampling and testing of effluent discharged from	
(3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	15	an alternative residential onsite sewage system at least	
(3) If an inspection of the alternative residential onsite sewage system or the sampling and testing of effluent from the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	16	once every three (3) months.	
the alternative residential onsite sewage system discloses that the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	17	· · · · · · · · · · · · · · · · · · ·	
the alternative residential onsite sewage system is not in compliance with the effluent limitations established by the rules adopted by the environmental management board under IC 13-18-28-3 or is otherwise in need of maintenance or repair, the owner of the property in which the alternative residential onsite sewage system is located shall promptly have the alternative residential onsite sewage system serviced or repaired by an individual or entity qualified to perform the service or repair work under the rules adopted by the environmental management board under IC 13-18-28-3. (4) If the property owner fails to satisfy any requirements concerning the mandatory inspection and maintenance of the alternative residential onsite sewage system, the sampling and testing of effluent from the alternative residential onsite sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	18	sewage system or the sampling and testing of effluent from

sewage system, or the servicing or repair of the alternative residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	33	alternative residential onsite sewage system, the sampling	
residential onsite sewage system, the local health department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	34	and testing of effluent from the alternative residential onsite	
department: (A) shall have the alternative residential onsite sewage system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	35	sewage system, or the servicing or repair of the alternative	
38 (A) shall have the alternative residential onsite sewage 39 system inspected, maintained, tested, serviced, or 40 repaired by an individual or entity qualified to perform 41 the inspection, maintenance, testing, service or repair	36	residential onsite sewage system, the local health	
system inspected, maintained, tested, serviced, or repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	37	department:	
repaired by an individual or entity qualified to perform the inspection, maintenance, testing, service or repair	38	(A) shall have the alternative residential onsite sewage	
41 the inspection, maintenance, testing, service or repair		system inspected, maintained, tested, serviced, or	
1 , 3, 1	40	repaired by an individual or entity qualified to perform	
work under the rules adopted by the environmental	41	•	_
	42	work under the rules adopted by the environmental	

1	management board under IC 13-18-28-3; and	
2	(B) shall bill the property owner for the cost of the	
3	inspection, maintenance, testing, service, or repair work	
4	plus a reasonable sum to defray the expenses of the local	
5	health department in arranging for the service or repair	
6	work.	
7	Sec. 5. (a) A local health department shall enforce payment	
8	under this section of costs accrued under section 4(4)(B) of this	
9	chapter.	
0	(b) As often as the local health department determines	
1	necessary in a calendar year, the local health department shall	
2	prepare either of the following:	
3	(1) A list of the costs accrued under section 4(4)(B) of this	
4	chapter that includes:	
5	(A) the name of the owner of each lot or parcel of real	
6	property as to which costs are delinquent;	
7	(B) a description of the lot or parcel of real property, as	
.8	shown in the records of the county auditor; and	
9	(C) the amount of the delinquent costs.	
20	(2) An individual instrument for each lot or parcel of real	
21	property on which the costs accrued under section 4(4)(B) of	
22	this chapter are delinquent.	
23	(c) An officer of the local health department shall record a	
24	copy of each list or each individual instrument with the county	
25	recorder. The county recorder shall charge a fee for recording the	
26	list or each individual instrument in accordance with the fee	
27	schedule established in IC 36-2-7-10. The officer shall mail by	
28	certified mail, or by another delivery service providing proof of	
29	delivery, to each property owner on the list or on an individual	
80	instrument a notice stating that a lien against the owner's property	
31	has been recorded. A service charge of five dollars (\$5), which is in	
32	addition to the recording fee charged under this subsection, shall	
33	be added to each copy of each list or instrument that is recorded	
34	under this subsection.	
35	(d) Using the lists and instruments prepared under subsection	
86	(b) and recorded under subsection (c), the local health department	
37	shall, not later than ten (10) days after the list or each individual	
88	instrument is recorded under subsection (c), certify to the county	
39	auditor a list of the unpaid liens for collection with the next May	
10	installment of property taxes. The county and its officers and	
1	employees are not liable for any material error in the information	_
12	on this list.	

1	(e) Upon receipt of the list under subsection (c), the county	
2	auditor shall add a fifteen dollar (\$15) certification fee for each lot	
3	or parcel of real property on which costs are delinquent. The fee is	
4	in addition to all other fees and charges. The county auditor shall	
5	immediately enter on the tax duplicate for the district the	
6	delinquent costs, fees, and charges that are due not later than the	
7	due date of the next May installment of property taxes. The county	
8	treasurer shall include any unpaid costs, fees, and charges of each	
9	lot or parcel of property at the time the next cycle's property tax	
10	installment is billed.	
11	(f) The local health department shall release any recorded lien	
12	when the delinquent costs, fees, and charges have been fully paid.	
13	The county recorder shall charge a fee for releasing the lien in	
14	accordance with IC 36-2-7-10.	
15	(g) After certification of liens under subsection (d), the local	
16	health department may not collect or accept delinquent costs, fees,	
17	and charges from property owners whose property has been	
18	certified to the county auditor.	
19	(h) If the delinquent costs, fees, and charges are not paid, they	
20	shall be collected by the county treasurer in the same way that	
21	delinquent property taxes are collected.	
22	(i) At the time of each semiannual tax settlement, the county	
23	treasurer shall certify to the county auditor all costs, fees, and	
24	charges that have been collected. The county auditor shall deduct	
25	the service charges and certification fees collected by the county	
26	treasurer and pay over to the officer the remaining amounts due	
27	the local health department. The county treasurer shall retain the	
28	service charges and certification fees that have been collected and	
29	shall deposit them in the county general fund.	
30	Sec. 6. IC 16-20-9-1 does not apply to this chapter.	
31	SECTION 7. IC 16-41-25-9 IS ADDED TO THE INDIANA	
32	CODE AS A NEW SECTION TO READ AS FOLLOWS	
33	[EFFECTIVE JULY 1, 2023]: Sec. 9. (a) As used in this section,	
34	"septage" means human excreta, wastewater, scum, sludge, and	
35	other content introduced through incidental or accidental seepage	
36	that is removed from domestic septic tanks, holding tanks, privies,	
37	seepage pits, cesspools, compost toilets, or portable sanitary units.	
38	(b) As used in this section, "septage management vehicle"	
39	means a vehicle that is:	
40	(1) used for:	
41	(A) the removal of septage from holding tanks or sewage	_
42	disposal systems; and	

1	(B) the transportation of the septage to wastewater	
2	treatment plants or other facilities for treatment,	
3	temporary storage, or disposal; and	
4	(2) subject to regulation under IC 13-18-12 and 327 IAC 7.1.	
5	(c) Septage that originates from a residential or commercial	
6	source may be held in one (1) or more holding tanks until it is	
7	removed and transported from the site of the holding tanks by a	
8	septage management vehicle. A holding tank to which this	
9	subsection applies may not have a capacity of more than ten	
0	thousand (10,000) gallons.	
.1	(d) A holding tank used under this section must be:	
2	(1) designed and equipped so that septage can be cleanly and	
.3	efficiently pumped from the tank into a septage management	
4	vehicle to be transported from the site of the tank; and	
.5	(2) equipped with a device that will produce an audio and	
.6	visual alarm when the septage in the tank reaches two-thirds	
7	(2/3) of the tank's capacity.	
.8	(e) A holding tank described in this section may not be used to	
9	hold septage unless the tank owner has obtained a permit from the	
20	local health department of the county, city, or multiple county unit	
21	in which the holding tank is located. To obtain a permit, the owner	
22	of a holding tank must:	
23	(1) enter into a written contract with an operator of septage	
24 25	management vehicles providing for the removal of septage	
	from the holding tank at regular intervals;	
26	(2) provide a copy of the contract to the local health	
27	department; and	
28	(3) commit to providing to the local health department copies	
29	of receipts or other records proving that the holding tank	
80	owner is regularly paying the septage management vehicle	
31	operator a fee for the removal of septage from the holding	
32	tank.	
33	(f) A permit issued to the owner of a holding tank may be	
34	suspended or revoked, or renewal of the permit may be denied, for:	
35	(1) a violation of:	
86	(A) this section;	
37	(B) a condition stated in the permit; or	
88	(C) a requirement established under subsection (g); or	
39	(2) a problem involving the holding tank or the operation of	
10	the holding tank that creates a risk of harm to human health	
11	or the environment.	
12	(g) The local health department of a county, city, or multiple	

1 2	county unit may establish requirements: (1) concerning the issuance, term, and renewal of permits	
3	required under subsection (e);	
4 5	(2) concerning the design, construction, location, and operation of holding tanks described in this section; and	
6	(3) determining:	
7	(A) the ways in which a holding tank owner may provide	
8	the proof; and	
9	(B) how often the tank owner must provide the proof;	
0	required under subsection (e)(3).	
1	(h) In accordance with any rules or guidelines adopted under	
2	IC 13-18-12-3(b), a local health department that issues permits for	
3	the use of holding tanks under this section shall report to the	
4	department of environmental management concerning the holding	
5	tanks.	
6	SECTION 8. An emergency is declared for this act.
