SECTION 1 ~~↔~~ [1]. IC 4-22-2.6-4, AS AMENDED BY P.L.213-2025, SECTION 56, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: Sec. 4. (a) To readopt a rule, an agency must conduct a review of the rule to consider the continued need for the rule and whether the rule, if readopted, will meet each of the standards in IC 4-22-2-19.5 and (if applicable) the requirements for fees, fines, and civil penalties in IC 4-22-2-19.6.

(b) In the review, the agency shall reexamine previous cost benefit, economic impact, fiscal impact, and regulatory burden statements prepared by the agency for the rule under IC 4-3-22-13, IC 4-22-2-22.7, IC 4-22-2-22.8, IC 4-22-2-28, IC 4-22-2.1-5, or an executive order and revise the statements to reflect any change in circumstances that affect the analysis. The agency shall identify any alternative methods of achieving the purpose of the rule that are less costly or less intrusive, or that would otherwise minimize the economic impact of the proposed rule on small businesses (as defined in IC 4-22-2.1-4) and other regulated entities. The agency also shall consider the following:

(1) The nature of any complaints or comments received from the public, including small businesses (as defined in IC 4-22-2.1-4), concerning the rule or the rule's implementation by the agency.

(2) The complexity of the rule, including any difficulties encountered by:

(A) the agency in administering the rule; or

(B) small businesses (as defined in IC 4-22-2.1-4) or other regulated persons in complying with the rule.

(3) The degree to which technology, economic conditions, or other factors have changed in the area affected by the rule since the last time the rule was reviewed.

(c) In the review, the agency shall compare the requirements within the rule to similar requirements in Illinois, Kentucky, Michigan, Ohio, and any additional states designated by the office of management and budget for comparison.

(d) The agency shall prepare written findings concerning the agency's determinations under this section. The written findings shall include the following:

(1) A statement identifying whether the program or subject matter covered by the rule is still carried out by the agency.

(2) The rationale for the agency's determination under subsection (a) for the continued need for the rule.

(3) The rationale for the agency's determination under subsection (a) that the rule, if readopted, will meet each of the standards in IC 4-22-2-19.5 and (if applicable) the requirements for fees, fines, and civil penalties in IC 4-22-2-19.6.

(4) Either of the following:

(A) Any revisions to previously prepared cost benefit, economic impact, fiscal impact, or regulatory burden statements prepared by the agency for the rule under:

(i) IC 4-3-22-13;

(ii) IC 4-22-2-22.7;

(iii) IC 4-22-2-22.8;

(iv) IC 4-22-2-28; or

(v) IC 4-22-2.1-5;

if those previously prepared statements were published by the Indiana Register.

(B) If the rule did not have a prior cost benefit, economic impact, fiscal impact, or regulatory burden statement prepared by the agency for the rule under:

(i) IC 4-3-22-13;

(ii) IC 4-22-2-22.7;

(iii) IC 4-22-2-22.8;

(iv) IC 4-22-2-28; or

(v) IC 4-22-2.1-5;

published in the Indiana Register, a copy of an updated regulatory burden statement that meets the requirements of IC 4-22-2-22.7.

(5) Any alternative methods of achieving the purpose of the rule that are less costly or less intrusive, or that would otherwise minimize the economic impact of the proposed rule on small businesses (as defined in IC 4-22-2.1-4) and other regulated entities.

(6) The nature of any complaints or comments received from the public, including small businesses (as defined in IC 4-22-2.1-4), concerning the rule or the rule's implementation by the agency.

(7) Any difficulties encountered by:

(A) the agency in administering the rule; or

(B) small businesses (as defined in IC 4-22-2.1-4) or other regulated persons in complying with the rule.

(8) The degree to which technology, economic conditions, or other factors have changed in the area affected by the rule since the last time the rule was adopted, readopted, or amended.

(9) Whether the federal government or any of the states covered by subsection (c) have less restrictive requirements than the rule, and, if so, the evidence or unique circumstances that justify why the more restrictive requirements in the rule are necessary.

(10) The last time the substantive content of the rule was amended.

(11) Whether the substantive content in the rule would be

M
a
r

more appropriately integrated into the Indiana Code as opposed to remaining as a separate administrative rule. In making such a determination, the agency shall consider the frequency of updates to the rule since its initial promulgation. If the substantive content of the rule has not been modified in the prior eight (8) years, the agency must present specific facts that justify keeping the substantive content in an administrative rule rather than the Indiana Code.

(e) The written findings in subsection (d) must be submitted in a form that can be easily loaded into commonly used business analysis software and published in the Indiana Register using the format jointly developed by the publisher, the office of management and budget, and the budget agency. The office of management and budget may provide more stringent requirements for rules with fiscal impacts and costs above a threshold amount determined by the office of management and budget.

SECTION 202. IC 14-34-10-2 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2027]: Sec. 2. (a) As used in this section, "higher or better uses" means postmining land uses that have a higher:

(1) economic value; or

(2) nonmonetary benefit;

to the landowner or the community than the premining land uses.

(b) In addition to other standards a permittee must meet under rules of the commission, a permittee shall do the following:

(1) Place markers on the site to readily identify the permit area.

(2) Conduct the surface coal mining operation in a manner that maximizes the use and conservation of the solid fuel resource that is recovered so that re-affecting the land in the future through surface coal mining is minimized.

(3) Restore the land affected to a condition capable of supporting the uses that the land was capable of supporting before mining or higher or better uses of which there is a reasonable likelihood if:

(A) those uses do not:

(i) present an actual or a probable hazard to public health or safety; or

(ii) pose an actual or a probable threat of water diminution or pollution; and

(B) the permit applicant's declared proposed land use following reclamation:

(i) is not impractical or unreasonable;

(ii) is not inconsistent with applicable land use policies and plans;

(iii) does not involve unreasonable delay in implementation; or

(iv) does not violate federal, state, or local law.

(4) Except as provided in subdivisions (5) and (6) and section 4 of this chapter with respect to all surface coal mining operations

backfill, compact where advisable to ensure stability or prevent the leaching of toxic materials, and grade to restore the approximate original contour of the land with all highwalls, spoil piles, and depressions eliminated. Small depressions are allowed if needed to retain moisture to assist revegetation or as otherwise authorized under this article.

(5) In a surface coal mining operation that:

(A) is carried out at the same location over a substantial time;

(B) transects the coal deposit and the thickness of the coal deposit relative to the volume of the overburden that is large; and

(C) has overburden and other spoil and waste materials at a particular point in the permit area or otherwise available from the entire permit area that is insufficient, giving due consideration to volumetric expansion, to restore the approximate original contour;

the operator, at a minimum, shall backfill, grade, and compact, where advisable, using all available overburden and other spoil and waste materials to attain the lowest practicable grade but not more than the angle of repose to provide adequate drainage and to cover all acid-forming and other toxic materials to achieve an ecologically sound land use compatible with the surrounding region.

(6) If in surface coal mining:

(A) the volume of overburden is large relative to the thickness of the coal deposit; and

(B) the operator demonstrates that due to volumetric expansion the amount of overburden and other spoil and waste materials removed in the course of the mining operation is more than sufficient to restore the approximate original contour;

the operator shall, after restoring the approximate contour, backfill, grade, and compact, where advisable, the excess overburden and other spoil and waste materials to attain the lowest grade but not more than the angle of repose and to cover all acid-forming and other toxic materials to achieve an ecologically sound land use compatible with the surrounding region. The overburden or spoil shall be shaped and graded in a way that prevents slides, erosion, and water pollution and revegetated in accordance with the requirements of this article.

(7) Stabilize and protect all surface areas, including spoil piles,

a

affected by the surface coal mining and reclamation operation to effectively control erosion and attendant air and water pollution.

(8) Remove the topsoil from the land in a separate layer and:

(A) replace the topsoil on the backfill area; or

(B) if the topsoil is not used immediately;

(i) segregate the topsoil in a separate pile from other spoil; and

(ii) if the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful cover by quick growing plants or other means so that the topsoil is preserved from wind and water erosion, remains free of any contamination by other acid or toxic material, and is in a usable condition for sustaining vegetation when restored during reclamation.

However, if the topsoil is of insufficient quantity or of poor quality to sustain vegetation or if other strata are more suitable for vegetation requirements, the operator shall remove, segregate, and preserve, in a like manner, the strata that are best able to support vegetation.

(9) Restore the topsoil or the best available subsoil that is best able to support vegetation.

(10) For all prime farmland as identified in IC 14-34-3-3(16), comply with the specifications for soil removal, storage, replacement, and reconstruction established by rules of the commission and do the following:

(A) Segregate the A horizon of the natural soil unless it is shown that other available soil materials will create a final soil that has a greater productive capacity, stockpile this material, if not used immediately, separately from other spoil, and provide needed protection from wind and water erosion or contamination by other acid or toxic material.

(B) Segregate the B horizon of the natural soil, or underlying C horizons or other strata, or a combination of those horizons or other strata that are texturally and chemically suitable for plant growth and equal to or more favorable for plant growth than the B horizon, in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that existing in the natural soil, stockpile this material, if not used immediately, separately from other spoil, and provide needed protection from wind and water erosion or contamination by other acid

1 or toxic material.

2 (C) Replace and regrade the root zone material described in
3 clause (B) with proper compaction and uniform depth over
4 the regraded spoil material.

5 (D) Redistribute and grade in a uniform manner the surface
6 soil horizon described in clause (A).

7 (11) Create, if authorized in the approved surface coal mining
8 and reclamation plan, permanent impoundments of water on
9 mining sites. The permittee may create the permanent
10 impoundment only after the permittee demonstrates the
11 following:

12 (A) The size of the impoundment is adequate for the
13 intended purposes.

14 (B) The impoundment dam construction will be designed to
15 achieve necessary stability with an adequate margin of
16 safety compatible with that of structures constructed under
17 16 U.S.C. 1006.

18 (C) The quality of impounded water will be suitable, on a
19 permanent basis, for the intended use and discharges from
20 the impoundment will not degrade the water quality below
21 water quality standards established under applicable federal
22 and state law in the receiving stream.

23 (D) The level of water will be reasonably stable.

24 (E) Final grading will provide adequate safety and access
25 for proposed water users.

26 (F) The water impoundments will not result in the
27 diminution of the quality or quantity of water used by
28 adjacent or surrounding landowners for agricultural,
29 industrial, recreational, or domestic uses.

30 (12) Conduct an augering operation associated with surface coal
31 mining in a manner that maximizes the recoverability of mineral
32 reserves remaining after the surface coal mining and reclamation
33 operation is complete and seal all auger holes with an
34 impervious and noncombustible material to prevent drainage
35 except where the director determines that the resulting
36 impoundment of water in those auger holes may create a hazard
37 to the environment or the public health or safety. The director
38 may prohibit augering if necessary to:

39 (A) maximize the use, recoverability, or conservation of the
40 solid fuel resources; or

41 (B) protect against adverse water quality impacts.

42 (13) Minimize disturbances to the prevailing hydrologic balance

at the mine site and associated offsite areas and to the quality and quantity of water in surface and ground water systems during and after surface coal mining and reclamation operations by doing the following:

(A) Avoiding acid or other toxic mine drainage by measures such as the following:

(i) Preventing or removing water from contact with toxic-producing deposits.

(ii) Treating drainage to reduce toxic content that adversely affects downstream water upon being released to watercourses.

(iii) Casing, sealing, or otherwise managing boreholes, shafts, and wells and keep acid or other toxic drainage from entering ground and surface water.

(B) Conducting surface coal mining and reclamation operations so as to prevent, to the extent possible using the best technology currently available, violations of the effluent limitations for coal mining operations established under applicable state or federal law.

(C) Constructing siltation structures under clause (B) before commencement of surface coal mining operations that will be certified by an engineer licensed under ~~IC 25-31~~ **IC 25-4-3** and constructed as designed and approved in the reclamation plan.

(D) Cleaning out and removing temporary or large settling ponds or other siltation structures from drainageways after disturbed areas are revegetated and stabilized and depositing the silt and debris at a site and in a manner approved by the director.

(E) Restoring recharge capacity of the mined area to approximate premining conditions.

(F) Avoiding channel deepening or enlargement in operations requiring the discharge of water from mines.

(G) Other actions required under the permit.

(14) With respect to surface disposal of mine wastes, tailings, coal processing wastes, and other wastes in areas other than the mine workings or excavations, the following:

(A) Stabilize all waste piles in designated areas through construction in compacted layers, including the use of incombustible and impervious materials if necessary.

(B) Assure the following:

(i) The final contour of the waste pile will be

compatible with natural surroundings.

(ii) The site will be stabilized and revegetated according to this article.

(15) Refrain from surface coal mining within five hundred (500) feet of active and abandoned underground mines to prevent breakthroughs and to protect the health or safety of miners. However, the director shall permit an operator to mine near, through, or partially through an abandoned underground mine or closer to an active underground mine if the following conditions exist:

(A) The nature, timing, and sequencing of the approximate coincidence of specific coal surface mining activities with specific underground coal mining activities are jointly approved by the regulatory authorities concerned with surface coal mining regulation and the health and safety of underground miners.

(B) The operations will result in:

(i) improved resource recovery;

(ii) abatement of water pollution; or

(iii) elimination of hazards to the health and safety of the public.

(16) Design, locate, construct, operate, maintain, enlarge, modify, and remove or abandon, in accordance with the standards and criteria used by the United States Secretary of the Interior to ensure that flood control structures are safe and effectively perform their functions, all existing and new coal mine waste piles:

(A) consisting of:

(i) mine wastes;

(ii) tailings;

(iii) coal processing wastes; or

(iv) other liquid and solid wastes; and

(B) used temporarily or permanently as dams or embankments.

(17) Ensure the following:

(A) All debris, acid-forming materials, toxic materials, or materials constituting a fire hazard are treated, buried, and compacted or otherwise disposed of in a manner designed to prevent contamination of ground or surface water.

(B) Contingency plans are developed to prevent sustained combustion.

(18) Ensure that explosives are used only in accordance with the

1 following:

2 (A) IC 14-34-12.

3 (B) Applicable state and federal law.

4 (C) The rules adopted by the commission.

5 (19) Ensure that all reclamation efforts proceed in an
6 environmentally sound manner and as contemporaneously as
7 practicable with the surface coal mining operations. However, if
8 the applicant proposes to combine surface coal mining
9 operations with underground coal mining operations to assure
10 maximum practical recovery of the mineral resources, the
11 director may grant a variance for specific areas within the
12 reclamation plan from the requirement that reclamation efforts
13 proceed as contemporaneously as practicable and permit
14 underground coal mining operations before reclamation if the
15 following conditions are met:

16 (A) The director finds in writing the following:

17 (i) The applicant has presented, as part of the permit
18 application, specific, feasible plans for the proposed
19 underground mining operations.

20 (ii) The proposed underground mining operations are
21 necessary or desirable to assure maximum practical
22 recovery of the mineral resource and will avoid
23 multiple disturbance of the surface.

24 (iii) The applicant has satisfactorily demonstrated that
25 the plan for the underground coal mining operations
26 conforms to the requirements for underground coal
27 mining in that jurisdiction and that permits necessary
28 for the underground coal mining operations have been
29 issued by the appropriate authority.

30 (iv) The applicant has shown the areas proposed for the
31 variance are necessary for the implementation of the
32 proposed underground coal mining operations.

33 (v) Substantial adverse environmental damage, either
34 onsite or offsite, will not result from the delay in
35 completion of reclamation as required by this article.

36 (vi) The provisions for the offsite storage of spoil will
37 comply with subdivision (25).

38 (B) The commission has adopted specific rules to govern
39 the granting of variances in accordance with this
40 subdivision.

41 (C) Variances granted under this subdivision are to be
42 reviewed by the director not more than three (3) years from

the date of issuance of the permit.

(D) Liability under the bond filed by the applicant with the director under IC 14-34-6 is for the duration of underground coal mining operations and until the requirements of this section and IC 14-34-6 are fully complied with.

(20) Ensure that the construction, maintenance, and postmining conditions of access roads into and across the site of operations will control or prevent the following:

(A) Erosion and siltation.

(B) Pollution of water.

(C) Damage to the following:

(i) Fish or wildlife or their habitat.

(ii) Public or private property.

(21) Refrain from the construction of roads or other access ways:

(A) up a stream bed or drainage channel; or

that seriously alters the normal flow of water.

(22) Establish on the regraded areas and all other land affected a diverse, an effective, and a permanent vegetative cover:

(A) of the same seasonal variety native to the area of land to be affected; and

(B) that is capable of self-regeneration and plant succession at least equal in extent of cover to the natural vegetation of the area.

However, an introduced species may be used in the revegetation process where desirable and necessary to achieve the approved postmining land use plan.

(23) Assume the responsibility for successful revegetation, as required by subdivision (22), as follows:

(A) On lands not eligible for remining, for five (5) full years after the last year of augmented seeding, fertilizing, irrigation, or other work to assure compliance with subdivision (22). However, if the director approves a long term intensive agricultural postmining land use, the applicable five (5) or ten (10) year period of responsibility for revegetation commences at the date of initial planting for the long term intensive agricultural postmining land use. If the director issues a written finding approving a long term intensive agricultural postmining land use as part of the mining and reclamation plan, the director may grant exception to subdivision (22).

(B) On lands eligible for remining, for two (2) full years

after the last year of augmented seeding, fertilizing, irrigation, or other work in order to ensure compliance with subdivision (22).

(24) Protect offsite areas from slides or damage occurring during the surface coal mining and reclamation operations and not deposit spoil material or locate any part of the operations or waste accumulations outside the permit area.

(25) Place all excess spoil material resulting from coal surface mining and reclamation activities to ensure the following:

(A) Spoil is transported and placed in a controlled manner in a position for concurrent compaction and in a manner that assures mass stability and prevents mass movement.

(B) The areas of disposal are within the bonded permit areas and all organic matter is removed immediately before spoil placement.

(C) Appropriate surface and internal drainage systems and diversion ditches are used in a manner that prevents spoil erosion and movement.

(D) The disposal area does not contain springs, natural watercourses, or wet weather seeps unless lateral drains are constructed from the wet areas to the main underdrains in a manner that prevents filtration of the water into the spoil pile.

(E) If placed on a slope, the spoil is placed as follows:

(i) On the most moderate slope among the slopes on which, in the judgment of the director, the spoil could be placed in compliance with all the requirements of this article.

(ii) If possible, upon or above a natural terrace, bench, or berm if the placement provides additional stability and prevents mass movement.

(F) Where the toe of the spoil rests on a downslope, a rock toe buttress of sufficient size to prevent mass movement is constructed.

(G) The final configuration is compatible with the natural drainage pattern and surroundings and suitable for intended uses.

(H) Design of the spoil disposal area is certified by an engineer licensed under ~~IC 25-31~~ **IC 25-4-3** and in conformance with professional standards.

(I) All other provisions of this article are met.

(26) To the extent possible using the best technology currently

1 available the following:

2 (A) Minimize disturbances and adverse impacts of the
3 operation on fish, wildlife, and related environmental
4 values.

5 (B) Enhance those resources where practicable.

6 (27) Provide for an undisturbed natural barrier:

7 (A) beginning at the elevation of the lowest coal seam to be
8 mined; and

9 (B) extending from the outslope for a distance determined
10 by the director;

11 to serve as a barrier to slides and erosion.

12 (28) Replace the water supply of an owner of interest in real
13 property who obtains all or part of the owner's supply of water
14 for domestic, agricultural, industrial, or other legitimate use from
15 an underground or a surface source if the supply is affected by
16 contamination, diminution, or interruption proximately resulting
17 from the surface coal mine operation. This article does not affect
18 the right of a person to enforce or protect under applicable law
19 the person's interest in water resources affected by a surface coal
20 mining operation.

21 (29) Meet other criteria that are necessary to achieve reclamation
22 in accordance with the purposes of this article, taking into
23 consideration the physical, climatological, and other
24 characteristics of the site.

SECTION ~~374~~ [592]. IC 22-15-5-16, AS AMENDED BY P.L.186-2025, SECTION 123, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: Sec. 16. (a) A practitioner shall comply with the standards established under this licensing program. A practitioner is subject to the exercise of the disciplinary sanctions under IC 22-12-7-7 if the department finds that a practitioner has:

- (1) engaged in or knowingly cooperated in fraud or material deception in order to obtain a license to practice, including cheating on a licensing examination;
- (2) engaged in fraud or material deception in the course of professional services or activities;
- (3) advertised services or goods in a false or misleading manner;
- (4) falsified or knowingly allowed another person to falsify attendance records or certificates of completion of continuing education courses provided under this chapter;
- (5) been convicted of a crime that has a direct bearing on the practitioner's ability to continue to practice competently;
- (6) knowingly violated a state statute or rule or federal statute or regulation regulating the profession for which the practitioner is licensed;
- (7) continued to practice although the practitioner has become unfit to practice due to:
 - (A) professional incompetence;
 - (B) failure to keep abreast of current professional theory or practice;
 - (C) physical or mental disability; or
 - (D) addiction to, abuse of, or severe dependency on alcohol or

- 1 other drugs that endanger the public by impairing a
2 practitioner's ability to practice safely;
3 (8) engaged in a course of lewd or immoral conduct in connection
4 with the delivery of services to the public;
5 (9) allowed the practitioner's name or a license issued under this
6 chapter to be used in connection with an individual or business
7 who renders services beyond the scope of that individual's or
8 business's training, experience, or competence;
9 (10) had disciplinary action taken against the practitioner or the
10 practitioner's license to practice in another state or jurisdiction on
11 grounds similar to those under this chapter;
12 (11) assisted another person in committing an act that would
13 constitute a ground for disciplinary sanction under this chapter;
14 or
15 (12) allowed a license issued by the department to be:
16 (A) used by another person; or
17 (B) displayed to the public when the license has expired, is
18 inactive, is invalid, or has been revoked or suspended.
- 19 For purposes of subdivision (10), a certified copy of a record of
20 disciplinary action constitutes prima facie evidence of a disciplinary
21 action in another jurisdiction.
- 22 (b) If an applicant or a practitioner has engaged in or knowingly
23 cooperated in fraud or material deception to obtain a license to
24 practice, including cheating on the licensing examination, the

26 examination or other fraudulent or deceptive material, and prohibit the
27 applicant from reapplying for the license for a length of time
28 established by the department.
- 29 (c) The department may deny licensure to an applicant who has had
30 disciplinary action taken against the applicant or the applicant's license
31 to practice in another state or jurisdiction or who has practiced without
32 a license in violation of the law. A certified copy of the record of
33 disciplinary action is conclusive evidence of the other jurisdiction's
34 disciplinary action.
- 35 (d) The department may order a practitioner to submit to a
36 reasonable physical or mental examination if the practitioner's physical
37 or mental capacity to practice safely and competently is at issue in a
38 disciplinary proceeding. Failure to comply with a department order to
39 submit to a physical or mental examination makes a practitioner liable
40 to temporary suspension under subsection (h).
- 41 (e) Except as provided under subsection (f) or (g), a license may not
42 be denied, revoked, or suspended because the applicant or holder has

1 been convicted of an offense. The acts from which the applicant's or
 2 holder's conviction resulted may, however, be considered as to whether
 3 the applicant or holder should be entrusted to serve the public in a
 4 specific capacity.

5 (f) The department may deny, suspend, or revoke a license issued
 6 under this chapter if the individual who holds the license is convicted
 7 of any of the following:

 23 its amendment on July 1, 2015).

24 (8) Possession of marijuana, hash oil, hashish, or salvia as a Class
 25 D felony (for a crime committed before July 1, 2014) or a Level
 26 6 felony (for a crime committed after June 30, 2014) under
 27 IC 35-48-4-11.

34 or

35 (B) Level 6 felony for a crime committed after June 30, 2014;
 36 under IC 35-48-4-11.5 (before its repeal on July 1, 2019).

(7) shall post any vacancy on a board on the applicable board's website within fourteen (14) calendar days of the vacancy;

(8) notwithstanding any other law:

(A) shall prescribe the application form and manner for each board; and

(B) shall make any new application form publicly available on the applicable board's website for sixty (60) calendar days before being adopted by the agency; ~~and~~

(9) shall send notification of incomplete items in an application to the applicant every fourteen (14) calendar days after the applicant initiates the application until the earlier of the following:

(B) One (1) calendar year after the applicant initiates the application; ~~and~~

(10) may adopt and enforce procedural rules under IC 25-1-6-3.

(c) In administering the renewal of licenses or certificates under this chapter, the agency shall send a notice of the upcoming expiration of a license or certificate to each holder of a license or certificate at least ninety (90) days before the expiration of the license or certificate. The notice must inform the holder of the license or certificate of the need to renew and the requirement of payment of the renewal fee. If this notice of expiration is not sent by the agency, the holder of the license or certificate is not subject to a sanction for failure to renew if, once notice is received from the agency, the license or certificate is renewed within forty-five (45) days after receipt of the notice.

(d) In administering an examination for licensure or certification,

the agency shall make the appropriate application forms available at least thirty (30) days before the deadline for submitting an application to all persons wishing to take the examination.

(e) The agency may require an applicant for license renewal to submit evidence proving that:

(1) the applicant continues to meet the minimum requirements for licensure; and

(2) the applicant is not in violation of:

(A) the statute regulating the applicant's profession; or

(B) rules adopted by the board regulating the applicant's profession.

(f) The agency shall process an application for renewal of a license or certificate:

(1) not later than ten (10) days after the agency receives all required forms and evidence; or

(2) within twenty-four (24) hours after the time that an applicant for renewal appears in person at the agency with all required forms and evidence.

This subsection does not require the agency to issue a renewal license or certificate to an applicant if subsection (g) applies.

(g) The agency may delay issuing a license renewal for up to one hundred twenty (120) days after the renewal date for the purpose of permitting the board to investigate information received by the agency that the applicant for renewal may have committed an act for which the applicant may be disciplined. If the agency delays issuing a license renewal, the agency shall notify the applicant that the applicant is being investigated. Except as provided in subsection (h), before the end of the one hundred twenty (120) day period, the board shall do one (1) of the following:

(h) If an individual fails to appear before the board under subsection (g), the board may take action on the applicant's license allowed under subsection (g)(1), (g)(2), or (g)(3).

(i) The applicant's license remains valid until the final determination

of the board is rendered unless the renewal is denied or the license is summarily suspended under IC 25-1-9-10.

(j) The license of the applicant for a license renewal remains valid during the one hundred twenty (120) day period unless the license renewal is denied following a personal appearance by the applicant before the board before the end of the one hundred twenty (120) day period. If the one hundred twenty (120) day period expires without action by the board, the license shall be automatically renewed at the end of the one hundred twenty (120) day period.

(k) The board's renewal of a license does not preclude the board from imposing sanctions on the licensee as a result of a complaint filed by the attorney general after renewal of the license.

(l) Notwithstanding any other statute, the agency may stagger license or certificate renewal cycles. However, if a renewal cycle for a specific board or committee is changed, the agency must obtain the approval of the affected board or committee.

(m) An application for a license, certificate, registration, or permit is abandoned without an action of the board, if the applicant does not complete the requirements to complete the application within one (1) year after the date on which the application was filed. However, the board may, for good cause shown, extend the validity of the application for additional thirty (30) day periods. An application submitted after the abandonment of an application is considered a new application.

Chapter 3. Regulation of Engineers

Sec. 1. The board shall enforce and administer the provisions of this chapter, and adopt rules, not inconsistent with the Constitution and laws of this state, as may be reasonably necessary for the proper performance of its duties and the regulations of the proceedings before it. The board shall adopt rules establishing standards for the competent practice of engineering and for the administration of the registered professional engineers and registered engineering interns investigative fund established by section 20 of this chapter. Any rulemaking by the board shall be in accordance with ~~<due process and the remote state's laws, remove a licensee's compact privilege in the remote state for a specific period of time, impose fines, or take any other necessary actions to protect the health and safety of the remote state's citizens. Any member state which undertakes an action under this section shall promptly notify the other member states and the commission as specified in the rules. The licensee may be deemed to be ineligible to exercise the compact privilege by any member state until the specific time for removal has passed and all fines are paid.~~

~~—Sec. 5. All member state disciplinary orders that impose adverse action against a compact qualifying license must result in deactivation of the licensee's compact privilege in all member states during the pendency of the order. If a compact qualifying license is encumbered, the licensee loses the compact privilege in any remote state until the following occur:~~

~~—(1) The compact qualifying license is no longer encumbered;~~

~~—(2) The licensee has not had any encumbrance or restriction~~

against any license, compact qualifying license, or compact privilege within the previous two (2) years:

—Sec. 6. Once an encumbered license is restored to good standing as a compact qualifying license (as certified by) IC 4-22-2.

Sec. 2. (a) Except as provided in IC 25-31-1-35 and subsection (b), the licensing <authority> [agency shall receive and account for all money collected under] the <licensee must meet the requirements> [provisions] of this chapter <to obtain a compact privilege in any remote state.

—Sec. 7. If a licensee's compact privilege in any remote state is removed, that licensee may also lose the compact privilege in other remote states, as each member state shall determine in its sole authority, until the following occur:

—(1) The specific period of time for which the compact privilege was removed has ended:

—(2) All fines have been paid:

—(3) The licensee has not had any encumbrance or restriction against any license or compact privilege within the previous two (2) years:

—Sec. 8. Once the requirements of section 7 of this chapter have been met, the licensee must meet the requirements in section 1 of this chapter to obtain a compact privilege in a remote state:

—Chapter 5. Qualifying License

—Sec. 1. A licensee may only designate one (1) license as their compact qualifying license at a time. The procedures for the designation may be further defined by compact commission rule:

—Sec. 2. This chapter does not require that the state of qualifying licensure be the state of primary residence or state of primary practice for the licensee:

—Sec. 3. This compact does not interfere with a licensee's ability to hold a single state license in multiple states:

—Sec. 4. This compact does not affect the requirements established by a member state for the issuance of a single state license:

—Chapter 6. Active Military Members

—Sec. 1. An active military member or their spouse is not required to pay a fee to the commission for a compact privilege. If a member state chooses to charge a member state fee, it may choose to charge a reduced fee or no fee to an active military member or their spouse for a compact privilege:

 5 ~~current significant investigative information of a remote state, so~~
 6 ~~long as the member state follows its own procedures for imposing~~
 7 ~~adverse action.~~

8 ~~— Sec. 3. This compact does not override a member state's decision~~
 9 ~~that participation in an alternative program may be used in lieu of~~
 10 ~~adverse action and that the participation remains non-public if~~
 11 ~~required by the member state's laws or rules.~~

12 ~~— Sec. 4. (a) A remote state may:~~

13 ~~— (1) take adverse actions against a licensee's compact privilege~~

22 three (3) attempts to pass each part of the examination within
 23 a time period established by the board by rule. The board
 24 may specify by rule the time required between examinations
 25 and the opportunity for future examination attempts for an
 26 applicant who fails to appear at an examination. The amount
 27 of the fee to be paid for each examination shall be determined
 28 by the board under IC 25-1-8-2.

29 (i) If an applicant who has failed a part of the examination three
 30 (3) times reapplies and submits evidence of acquiring additional
 31 knowledge for the examination, the board may give the applicant
 32 approval to take subsequent examinations or partial examinations.

33 Sec. 6. (a) The board shall issue a certificate of registration,
 34 upon the payment of the fee prescribed by the board under
 35 IC 25-1-8-2 and the fee established by section 2(b) of this chapter,
 36 to any applicant who, in the opinion of the board, has satisfactorily
 37 met all requirements of this chapter. In the case of a professional
 38 engineer, the certificate shall authorize the practice of
 39 "professional engineering". The certificate of registration shall:

40 (1) show the full name of the registrant;

41 (2) bear a serial number and date; and

42 (3) be signed by a designee of the board.

The issuance of any certificate of registration by the board under this chapter is evidence that the individual named on the certificate is entitled to all the rights and privileges of a registered professional engineer from the date on the certificate until it expires or is revoked.

(b) The board shall issue a certificate of enrollment upon the payment of the certificate fee prescribed by the board under IC 25-1-8-2 to any applicant who, in the opinion of the board, has satisfactorily met all of the requirements of this chapter. In the case of an engineering intern, the certificate shall state that the applicant has successfully passed the examination in engineering fundamentals and has been enrolled as an engineering intern. The certificate of enrollment shall:

(1) show the full name of the enrollee;

(2) bear a serial number and date; and

(3) be signed by the director of the licensing agency.

The issuance of a certificate of enrollment by the board is evidence that the individual named on the certificate is entitled to all the rights and privileges of an engineering intern while the certificate remains unrevoked or until it expires.

Sec. 7. (a) The granting of registration extends to the registrant the authority to use a seal of a design approved by the board bearing the registrant's name, registration number, and the legend "professional engineer".

(b) During the period of time that a registrant's certificate is valid, the registrant is authorized to apply the registrant's seal to plans, specifications, studies, drawings, and reports. Applying the registrant's seal attests that:

(1) the work embodies the engineering work of the registrant;

(2) the registrant or an employed subordinate supervised by the registrant prepared the documents, and in the context of engineered plans "prepared" refers to the registrant's control and direction of the engineering work and design process;

(3) the registrant assumes full professional responsibility ~~of investigation or determination of compliance issues under the compact.~~

~~—(11) Matters specifically exempted from disclosure by federal or member state law.~~

~~—(12) Other matters as specified in rules of the compact commission.~~

~~If a meeting, or portion of a meeting, is closed, the compact commission's legal counsel or designee shall certify that the~~

meeting will be closed and reference each relevant exempting provision, and the reference must be recorded in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release only by a majority vote of the compact commission or order of a court of competent jurisdiction.

—Sec. 7. (a) The compact commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

—(b) The compact commission may accept any and all appropriate revenue sources as provided in this section >[for the documents; and

(4) the work meets standards of acceptable engineering practice.

(c) It is unlawful for any person to stamp or seal any document with a seal after the certificate of the registrant named on the seal has expired or has been revoked.

Sec. 8. (a) Subject to IC 25-1-2-6(e), unless renewed, a certificate issued under this chapter expires on a date specified by the licensing agency under IC 25-1-6-4 and expires biennially after the initial expiration date. An applicant for renewal shall submit an application in the manner prescribed by the board and pay the renewal fee established by the board under IC 25-1-8-2 on or before the renewal date specified by the licensing agency.

(b) Subject to IC 25-1-2-6(e), if the holder of a certificate does not renew the certificate by the date specified by the licensing agency, the certificate expires and becomes invalid without the board taking any action].

(c) The <compact commission may levy on and collect an annual assessment from each member state and impose fees on licensees of member states to whom it grants a compact privilege to cover the cost of the operations and activities of the compact commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount for member states must be allocated based upon a formula that the compact commission promulgates by rule.

—(d) The compact commission shall not incur obligations of any kind before securing the funds or a loan adequate to meet the obligation. The compact commission shall not pledge the credit of any of the member states, except by and with the authority of the member state.

 5 commission is subject to an annual financial review or audit by a
 6 certified or licensed public accountant, and the report of the
 7 financial review or audit must be included in and become part of
 8 the annual report of the compact commission.

9 —Sec. 8. (a) Except as provided in subsection (b), the members,
 10 officers, executive director, employees, and representatives of the
 11 compact commission are immune from suit and liability, both
 12 personally and in their official capacity, for any claim for damage
 13 to or loss of property or personal injury or other civil liability
 14 caused by or arising out of any actual or alleged act, error, or
 15 omission that occurred, or that the person against whom the claim
 16 is made had a reasonable basis for believing occurred within the
 17 scope of commission employment, duties or responsibilities.

18 —(b) Subsection (a) does not protect any person from suit or
 19 liability for any damage, loss, injury, or liability caused by the
 20 intentional or willful or wanton misconduct of that person.

21 —(c) The procurement of insurance of any type by the commission
 22 does not in any way compromise or limit the immunity granted in
 23 subsection (a).

24 —(d) If the actual or alleged act, error, or omission did not result
 25 from that person's intentional or willful or wanton misconduct, the
 26 compact commission shall defend any member, officer, executive
 27 director, employee, and representative of the commission in any
 28 civil action seeking to impose liability arising out of any actual or
 29 alleged act, error, or omission that occurred within the scope of
 30 commission employment, duties, or responsibilities, or as
 31 determined by the commission that the person against whom the
 32 claim is made had a reasonable basis for believing occurred within
 33 the scope of commission employment, duties, or responsibilities.

34 —(e) Subsection (d) does not prohibit a person from retaining the
 35 person's own counsel at the person's own expense.

36 —(f) The commission shall indemnify and hold harmless any
 37 member, officer, executive director, employee, and representative
 38 of the commission for the amount of any settlement or judgment
 39 obtained against that person arising out of any actual or alleged

(d) If a certificate has been expired for not more than three (3) years, the certificate may be reinstated by the board if the holder of the certificate meets the requirements for reinstatement under IC 25-1-8-6(c).

(e) If a certificate has been expired for more than three (3) years, the certificate may be reinstated by the board if the holder of the certificate meets the requirements for reinstatement under IC 25-1-8-6(d).

Sec. 9. (a) The board may adopt rules requiring a professional engineer to obtain continuing education for renewal of a certificate under section 8 of this chapter.

(b) If the board adopts rules under this section, the rules must do the following:

(1) Establish an inactive certificate of registration that:

(A) does not require the holder of an inactive certificate to obtain continuing education; and

(B) prohibits the holder of an inactive certificate from practicing engineering.

(2) Establish requirements for reactivation of an inactive certificate.

Sec. 10. (a) A registration certificate for a professional engineer may be issued only to a natural person.

(b) A business, including a proprietorship, partnership, or corporation, doing business in Indiana may not practice or offer to practice engineering unless that practice is carried on under the responsible direction and supervision of a registered professional engineer who is a full-time employee of the business. All plans, sheets of designs, specifications, reports, studies, or other engineering documents that require certification and are prepared by the personnel of a business must carry the signature and seal of the registered professional engineer who is in responsible charge of the professional engineering work.

Sec. 11. ~~—Sec. 1. The compact commission shall promulgate reasonable rules to effectively and efficiently implement and administer this compact. A rule may be invalidated and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the compact commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review:~~

8 Sec. 17. (a) The attorney general, the prosecuting attorney of
 9 any county, the board, or a citizen of any county where a person
 10 who is not exempted engages in the practice of engineering without
 11 first having obtained a certificate of registration or without first
 12 having renewed an expired certificate of registration may, in
 13 accordance with the provisions of the laws of this state governing
 14 injunctions, file an action in the name of the state of Indiana to
 15 enjoin that person from engaging in the practice of engineering
 16 until a certificate of registration is secured or renewed.

17 (b) Any person who has been enjoined and violates an injunction
 18 shall be punished for contempt of court. An injunction does not
 19 relieve a person engaged in the practice of engineering without a
 20 certificate of registration or without first having renewed an
 21 expired certificate of registration from a criminal prosecution.

22 (c) The remedy by injunction is in addition to any remedy
 23 provided for herein for the criminal prosecution of the offender. In
 24 charging any person in a complaint for violation of the provisions
 25 of this chapter by engaging in the practice of engineering without
 26 a certificate of registration or without having renewed an expired
 27 certificate of registration, it is sufficient to charge that the
 28 offender:

29 (1) on a certain day in a certain county practiced or offered to
 30 practice engineering; and

31 (2) was not registered or exempted under this chapter.

32 Sec. 18. (a) Except as provided in IC 25-4-1-11, a person
 33 registered as a professional engineer under this chapter is exempt
 34 from the provisions of any and all statutes in force in this state

rule if the changes do not enlarge the original purpose of the proposed rule:

—(c) The compact commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters:

—(d) The compact commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in this section, the effective date of the rule must be no sooner than thirty (30) days after issuing the notice that it adopted or amended the rule:

—(e) Upon determination that an emergency exists, the compact commission may consider and adopt an emergency rule with twenty-four (24) hours' notice, with opportunity to comment if the usual rulemaking procedures provided in the compact and in this section is retroactively applied to the rule as soon as reasonably possible but in no event later than ninety (90) days after the effective date of the rule. For the purposes of this subsection, an emergency rule is one that must be adopted immediately in order to:

—(1) meet an imminent threat to public health, safety, or welfare;

—(2) prevent a loss of compact commission or member state funds;

—(3) meet a deadline for the promulgation of a rule that apply to an individual registered as an architect under IC 25-4-1. An architect, however, who is registered under IC 25-4-1 and exempted from this chapter may not use the designation "engineer" in any form or manner unless the architect is registered under this chapter.

Sec. 19. (a) This section does not apply to a job position filled by the department of environmental management.

(b) Unless a job position is filled by a professional engineer, the state or a political subdivision (as defined in IC 36-1-2-13) may not use the word "engineer" in the position's job title.

—(4) protect public health and safety:

—(f) The compact commission or an authorized committee of the compact commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in

format, errors in consistency, or grammatical errors. Public notice of any revisions must be posted on the website of the compact commission. The revision must be subject to challenge by any person for a period of at least thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the compact commission before the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the compact commission.

—(g) A member state's rulemaking requirements do not apply under this compact.

—Chapter 11. Oversight, Dispute Resolution, and Enforcement

—Sec. 1. (a) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

—(b) Except as otherwise provided in this compact, venue is proper and judicial proceedings by or against the compact commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the compact commission is located. The compact commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. This section does not affect or limit the selection or propriety of venue in any >[to provide funds for administering and enforcing the provisions of this chapter, including investigating and taking enforcement] action against <a licensee for professional malpractice, misconduct or any such similar matter.

—(c) The compact commission may receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in a proceeding regarding the enforcement or interpretation of the compact for all purposes. Failure to provide the compact commission service of process renders a judgment or order void as to the compact commission, this compact, or promulgated rules.

—Sec. 2. (a) If the compact commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide >[violators of this chapter. The fund shall be administered by the attorney general and the licensing agency.

(b) The expenses of administering the fund shall be paid from the money in the fund. The fund consists of money from the fee imposed upon registered professional engineers and registered engineering interns under section 9(b) of this chapter.

(c) The treasurer of state shall invest the money in the fund not currently needed to meet the obligations of the fund in the same manner as other public money may be invested.

(d) Money in the fund at the end of a state fiscal year does not revert to the state general fund. If the total amount in the fund exceeds five hundred thousand dollars (\$500,000) at the end of a state fiscal year after payment of all claims and expenses, the amount that exceeds five hundred thousand dollars (\$500,000) reverts to the state general fund.

(e) Money in the fund is continually appropriated for use by the attorney general and the licensing agency to administer and enforce the provisions of this chapter and to conduct investigations and take enforcement action against persons violating the provisions of this chapter.

~~Sec. 21. The board shall send] written notice to the <defaulting state. The notice of default must describe the default, the proposed means of curing the default, and any other action that the compact commission may take, and must offer training and specific technical assistance regarding the default.~~

~~—(b) The compact commission shall provide a copy of the notice of default to the other member states.~~

~~—Sec. 3. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges and benefits conferred on the defaulting state by this compact may be terminated on the effective date of termination. SECTION 805. IC 36-9-27-71 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2027]: Sec. 71. (1) there is no crossing; or

(2) the crossing will not adequately handle or will be endangered by the flow of water from the drain when completed;

the county surveyor shall include in the plans the grade and cross section requirements for a new crossing, or the requirements for altering, enlarging, repairing, or replacing the crossing. The surveyor shall mail a copy of the requirements addressed to the owner of the highway or right-of-way.

(b) When requested by the owner of the highway or right-of-way, the county surveyor shall meet with the owner at a time and place to be fixed by the surveyor. The surveyor shall hear objections to the requirements, and may then change the requirements as justice may require.

(c) When the board finds that in the construction, reconstruction, or maintenance of a regulated drain it is necessary to:

(1) alter, enlarge, repair, or replace a crossing; or

(2) construct a new crossing where none existed before;

the cost of the work on the crossing shall be paid by the owner of the public highway. This cost may not be considered by the county surveyor or by the board in determining the cost of the work on the drain or in assessing benefits and damages. However, if it is necessary for the owner of a public highway to construct a new crossing because of a cut-off for the purpose of shortening or straightening a regulated drain, the owner of the public highway shall pay one-half (1/2) of the cost of the new crossing, and the remainder shall be included in the cost of the work on the drain.

(e) If the county surveyor is registered under ~~IC 25-31~~, **IC 25-4-3**, the county surveyor must review and approve or disapprove the plans and hydraulic data for an existing crossing that is to be altered, enlarged, repaired, or replaced, or the construction of a new crossing for a public highway or the right-of-way of a railroad company. The county surveyor shall disapprove the plans and hydraulic data if they do not show that the structure will meet hydraulic requirements that will permit the drain to function properly.

(f) If the county surveyor is registered under IC 25-21.5, the county surveyor must review and approve or disapprove the plans and hydraulic data for an existing crossing that is to be altered, enlarged, repaired, or replaced or the construction of a new crossing for a public highway or the right-of-way of a railroad company. The county surveyor shall disapprove the plans and hydraulic data if they do not show that the structure will meet hydraulic requirements that will permit the drain to function properly.

(g) Approval of the plans and hydraulic data by a person who is registered under IC 25-21.5 or ~~IC 25-31~~ **IC 25-4-3** is required before the work can take place. However, if the county surveyor is not
