The owner or custodian of the seed is entitled to appeal a stop sale order to a court with jurisdiction in the locality in which the seed is found, as provided in IC 4-21.5, seeking a judgment as to the justification for the order for the discharge of the seed from the stop sale order in accordance with the findings of the court. 29 with section 32 of this chapter when sold to any person for any
30 purpose whether the seed is in containers or in bulk.

31 (2) Seed in storage or seed that is being transported or consigned
32 to a seed cleaning or processing establishment for cleaning or
33 processing if the invoice or labeling accompanying a shipment of

10 press, by circular, by catalog, or by exposing a sample of the seed
11 or a printed or written statement about the seed in a public place
12 or place of business, or if the seed is delivered by a common
13 carrier, (except when transported for the purpose of being
14 recleaned as provided in this section), the producer is considered
15 to be a vendor, and the seed must meet all requirements of this
16 chapter, including complete labeling of the seed. For cereal and
17 soybean seed where the purpose for which the seed is intended
18 may be in question, seed advertised for sale by variety name, as

20 than current market prices, is presumed to be offered for seeding
21 purposes and subject to the labeling provisions of this chapter.

22 (b) A person is not subject to the penalties of this chapter for
23 distributing agricultural **seed** or vegetable seed incorrectly labeled or
24 represented as to kind, variety, or origin and that cannot be identified

SECTION 19. IC 15-15-1-33.4 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: **Sec. 33.4. (a) Except as provided in subsection (b), the name of each kind of agricultural seed or vegetable seed is the name associated with one (1) or more related species or subspecies which singly or collectively are:**

- (1) allowed under 7 CFR 201.34; or**
- (2) known by one (1) common name**

(b) A name of a kind of agricultural seed or vegetable seed that is synonymous through broad common usage may be substituted for the name in subsection (a) if the name:

**(1) does not apply to more than one (1) kind of seed; and
(2) is not misleading.**

(c) The representation of the same kind and variety of agricultural seed or vegetable seed in any advertisement or labeling must be confined to the kind and variety as determined

1 under this chapter. The kind name and variety name may not be
2 associated with words or terms that create a misleading impression
3 as to the history or characteristics of the kind and variety.
4 Descriptive terms and firm names may be used in kind and variety
5 names if the descriptive terms or firm names are a part of the
6 name of the kind and variety name of the seed. Examples:
7 Stringless Green Pod, Detroit Dark Red, Black Seeded Simpson,
8 and Henderson Bush Lima.

9 (d) A term that describes color, shape, size, habit of growth,
10 disease resistance, or other characteristics of the kind and variety
11 may be associated with the name of the kind and variety if it is
12 done in a manner that clearly indicates the descriptive term is not
13 a part of the name of the kind and variety. Examples: Oshkosh
14 Pepper (yellow), Copenhagen Market (round head) Cabbage, and
15 Kentucky Wonder pole bean.

16 (e) A term that describes the:

- 17 (1) quality;
- 18 (2) origin; or

19 (3) basis for representations made;
20 may be associated with the name of the kind and variety of seed, if
21 the term is clearly identified as being other than part of the name
22 of the kind and variety. Examples: Blue Tag Gem Barley, Idaho
23 Origin Alfalfa, and Grower's Affidavit of Variety Atlas Sorghum.

24 (f) A descriptive term that describes the manner or method of
25 production or conditioning of seed may be associated with the
26 name of the kind and variety of seed if the term is not misleading.
27 For example, the terms "certified", "registered", "scarified",
28 "treated", and "hulled" may be used if they are not misleading.

29 (g) A brand name or term taken from a trademark may be
30 associated with the kind and variety or mixtures of kinds or
31 varieties or blends of varieties of seed as an indication of the
32 source. However, the term must clearly indicate that the term is
33 not part of the name of the kind and variety, mixture, or blend.
34 Example: Ox Brand Golden Cross sweet corn. A brand name or
35 trademark may not be used in place of a variety name or in any
36 manner that may be interpreted as being a variety name.

37 SECTION 20. IC 15-15-1-33.6 IS ADDED TO THE INDIANA
38 CODE AS A NEW SECTION TO READ AS FOLLOWS
39 [EFFECTIVE JULY 1, 2026]: Sec. 33.6. (a) When both a brand and
40 variety name are stated, the following terms must be shown on the
41 seed label in the following order from left to right or top to bottom:

- 42 (1) The brand name.

(2) The word "brand".
(3) The variety name.
(4) The kind name.

(b) When a brand name is stated but no variety name is stated, the following terms must be shown on the seed label in the following order from left to right or top to bottom:

- (1) The brand name.
- (2) The word "brand".
- (3) The kind name.
- (4) The words "variety not stated".

SECTION 21. IC 15-15-1-33.8 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: Sec. 33.8. (a) A seed mixture consisting of two (2) or more varieties of the same kind may be designated as a "blend" of seed if the following conditions are met:

- (1) The word "blend" is included on the label as a part of the name of the blend.
- (2) The variety name of each component of a blend is shown on the label along with the following information for each component:
 - (A) The percentage by weight of each component in excess of five percent (5%).
 - (B) The germination percentage.
 - (C) The hard seed percentage, if applicable.

(b) Notwithstanding subsection (a)(2), the following information may be placed on the label:

- (1) The:
 - (A) variety designation of each component;
 - (B) percentage by weight of each component;
 - (C) germination percentage; and
 - (D) hard seed percentage, if applicable;of each component may be omitted if the label states the kind of seed and the words "varieties not stated".
- (2) The blend may be represented by:
 - (A) one (1) common pure seed percentage;
 - (B) one (1) germination percentage; and
 - (C) one (1) hard seed percentage, if applicable; for the blend as a whole.
- (c) A blend or mixture may be assigned a brand name but not a variety name.
- (d) The labeling and advertisement of a varietal blend may not imply that the seed is a single variety.

4 person who distributes agricultural **seed** or vegetable seed in Indiana
5 may apply to the state seed commissioner for a permit to use the
6 person's own labeling, report the quantity of seed sold, and pay the
7 inspection fee on the basis of the report.

8 (b) In making application for a permit under subsection (a), the
9 distributor must agree to the following:

10 (1) Label the seed with the information required by law.
11 (2) Keep the records the state seed commissioner considers
12 necessary to indicate accurately the number and size of containers
13 of each kind of agricultural **seed** and vegetable seed distributed
14 and the quantity of such seed distributed in bulk.

16 commissioner's authorized representative permission to examine

20 furnished by the state seed commissioner the quantity of
21 agricultural **seed** and vegetable seed sold during the period
22 covered.

23 (c) The state seed commissioner may grant a permit under
24 subsection (a) if the state seed commissioner determines that the
25 applicant's proposed report of the quality of agricultural **seed** and
26 vegetable seed sold will lead to efficient enforcement of this chapter.
27 The state seed commissioner may revoke the permit at any time if it
28 appears to the state seed commissioner that the distributor is not
29 complying with the agreement described in subsection (b) or this
30 chapter. If:

31 (1) the report is not filed and the inspection fee not paid before
32 ten (10) days following the due date;
33 (2) the report of volume is false; or
34 (3) the labeling requirements of this chapter have not been
35 complied with;

36 the state seed commissioner may revoke the permit. If the inspection
37 fee is unpaid after the ten (10) day grace period, a penalty shall be
38 assessed in the amount of ten percent (10%) in addition to the amount
39 due.

40 (d) The report of quantity sold required under subsection (b)(4) is
41 due, and the inspection fees required under this chapter are payable,
42 semiannually on the last day of the month following the end of the

1 semiannual period. The first half reporting period ends June 30 and the
2 second half reporting period ends December 31.

33 **inspection fee is ten dollars (\$10) per reporting period.**

42 (k) Two (2) times each year the state seed commissioner shall

10 agricultural **seed** or vegetable seed distributed.

11 (2) Keep for one (1) year a file sample of each lot of seed that is
12 distributed after final disposition of the lot.

13 (b) All records and samples relating to the shipments involved must
14 be accessible for inspection by the state seed commissioner or the state
15 seed commissioner's agent during customary business hours.

16 (c) **The permit holder shall report the quantities of agricultural**
17 **seed and vegetable seed on forms furnished to the permit holder by**
18 **the state seed commissioner semiannually. The quantities must be**
19 **reported according to kind of seed as designated on the report**

21 SECTION 25. IC 15-15-1-38, AS ADDED BY P.L.2-2008,
22 SECTION 6, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE
23 JULY 1, 2026]: Sec. 38. (a) The state seed commissioner may file an
24 action for the seizure of any lot of agricultural **seed** or vegetable seed

26 (b) An action filed under this section must be filed in a court with
27 jurisdiction in the locality in which the seed is located.

28 (c) If the court finds the seed to be in violation of this chapter and
29 orders the condemnation of the seed, the seed shall be denatured,

41 by sections 32 and 33 of this chapter has not been completed
42 within a twelve (12) month period, not including the calendar

1 month in which the test was completed immediately before
2 distribution. However, the state seed commissioner may by rule
3 designate:

4 (A) a shorter period for a kind of agricultural **seed** or vegetable
5 seed that the state seed commissioner finds under ordinary
6 conditions of handling will not maintain, during a twelve (12)
7 month period, a germination within the established tolerance
8 limits; or

9 (B) a longer period for a kind of agricultural **seed** or vegetable
10 seed that is packaged in such container materials and under

14 conditions of handling.

15 (2) If the seed is not labeled in accordance with this chapter.

16 (3) If the seed carries labeling that is false or misleading in any
17 particular.

18 (4) If the seed contains or consists of prohibited noxious weed
19 seed.

20 (5) If the seed consists of or contains restricted noxious weed seed
21 in excess of one-fourth of one percent (0.25%). If less than
22 one-fourth of one percent (0.25%) of weed seed by weight is
23 present, the number per pound must be declared on the labeling.

24 (6) If the seed contains more than two and one-half percent
25 (2.5%) of all weed seed.

26 (7) If the seed is represented to be "certified seed", "registered
27 seed", or "foundation seed", the seed has not been produced and
28 labeled in accordance with the procedures and in compliance with
29 rules of an official or officially recognized seed certification or
30 registration agency.

31 (8) If the inoculant applied to pre-inoculated seed is ineffective as

13 (9) Distribute seed colored so that it does not contrast with the
14 natural color of the seed.
15 (10) Distribute noxious weed seed without a special use permit
16 issued by the seed commissioner under section 27(b)(17) of this
17 chapter.
18 (11) Assign the same brand designation to more than one (1)
19 variety or blend of the same kind of seed, if not sold by variety
20 name.
21 (12) Use relabeling stickers unless the relabeling stickers state:
22 (A) both the calendar month and year the germination test was
23 completed and the sell-by date, as required under sections
24 **31.5, 32, and 33** of this chapter; and

27 (13) Relabel a seed lot using stickers more than once.

28 SECTION 28. IC 15-15-1-44 IS ADDED TO THE INDIANA
29 CODE AS A **NEW SECTION** TO READ AS FOLLOWS
30 [EFFECTIVE JULY 1, 2026]: Sec. 44. **(a) In order to secure a**
31 **representative sample, equal portions must be taken from evenly**
32 **distributed parts of the quantity of seed or screenings to be**
33 **sampled. Access must be available to all parts of the quantity of**
34 **seed. When more than one (1) trierful of seed is drawn from a bag,**
35 **different paths through the bag must be followed. When more than**
36 **one (1) handful is taken from a bag, the handfuls must be taken**
37 **from well-separated points.**

38 **(b) Free flowing seeds must be sampled as follows:**
39 **(1) For free flowing seed in bags or bulk, a probe or trier must**
40 **be used.**
41 **(2) For small free flowing seed in bags, a probe or trier long**
42 **enough to sample all portions of the bag must be used.**

(c) Non-free flowing seed, including certain grass seed or uncleared seed or screenings, that is difficult to sample with a probe or trier must be sampled by inserting the hand into the bulk and withdrawing representative portions. The hand is inserted in an open position and the fingers are held closely together while the hand is being inserted and the portion withdrawn.

(d) As the seed or screenings are sampled, the person taking the sample shall examine each portion of the sample. If the sample appears to lack uniformity, the portions may not be combined into a composite sample but must be retained as separate samples or combined to form individual container samples to determine if a lack of uniformity may exist.

(e) If the portions appear to be uniform, the portions must be combined to form a composite sample.

SECTION 29. IC 15-15-1-45 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: **Sec. 45. Bulk seed or screenings must be sampled by inserting a long probe or inserting the hand into the bulk as circumstances require in at least seven (7) uniformly distributed parts of the quantity being sampled. At least as many trierfuls or handfuls must be taken as the minimum which would be required for the same quantity of seed or screenings in bags of a size customarily used for the seed or screenings.**

SECTION 30. IC 15-15-1-46 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: **Sec. 46. (a) For lots of six (6) bags or less, each bag must be sampled. A total of at least five (5) trierfuls must be taken.**

(b) For lots of more than six (6) bags, five (5) bags plus at least ten percent (10%) of the number of bags in the lots must be sampled (rounding off numbers with decimals to the nearest whole number, raising five-tenths (0.5) to the next whole number). Regardless of the lot size, it is not necessary that more than thirty (30) bags be sampled.

(c) Samples must be drawn from unopened bags except under circumstances where the identity of the seed has been preserved.

SECTION 31. IC 15-15-1-47 IS ADDED TO THE INDIANA CODE AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2026]: **Sec. 47. In sampling seed in a small container where it is not practical to sample as required by section 46 of this chapter, a portion of one (1) unopened container or one (1) or more entire unopened containers may be taken to supply a**

1 **minimum size sample.**
