 4 (d) In deciding whether to recognize a county to which section 4
 5 or 5 of this chapter applies as a member of an existing commission, the
 6 natural resources commission shall determine the answer to each of the
 7 following questions:
 8 (1) Do the stated purposes for which the watershed development
 9 commission was established correspond to the flood damage
 10 reduction, drainage, storm water management, recreation, or
 11 water infrastructure needs of the county, as stated under section
 12 4(b)(3) or 5(b)(3) of this chapter?
 13 (2) Is it reasonable to expect that the county's flood damage
 14 reduction, drainage, storm water management, recreation, or
 15 water infrastructure needs, as stated under section 4(b)(3) or
 16 5(b)(3) of this chapter, would be addressed more effectively if
 17 the county were a member of the existing commission than those
 18 needs have previously been addressed?
 19 (3) Would the county's membership in the existing commission
 20 diminish the effectiveness of the existing watershed
 21 development commission in addressing the flood damage
 22 reduction, drainage, storm water management, recreation, or
 23 water infrastructure needs of other member counties?
 24 (4) Is the territory of the proposed commission at least as large
 25 as the entirety of the same eight (8) digit U.S. Geological Survey
 26 hydrologic unit code?
 27 (5) Has a regional watershed study or watershed management
 28 plan been conducted in consultation with Indiana finance
 29 authority and the department of natural resources that assesses
 30 water use, water quality, drinking water systems, wastewater
 31 management systems, storm water management, flood control,
 32 drainage management, recreational uses, natural resources, and
 33 water infrastructure needs of the watershed of the proposed
 34 commission? If so, can the establishment of the proposed
 35 commission be expected to address the needs identified in that
 36 study or management plan?
 37 (e) If the natural resources commission answers all of the
 38 questions set forth in subsection (d) favorably, the natural resources
 39 commission shall issue an order recognizing the membership of the
 40 county in the existing commission.
 41 (f) If the natural resources commission does not answer all of the
 42 questions set forth in subsection (d) favorably, the natural resources

commission shall inform the executive of the county to which section 4 or 5 of this chapter applies in writing of its decision and specify in the writing the reason or reasons for each unfavorable answer.

(g) An action of the natural resources commission under this section declining to recognize a county as a member of an established watershed development commission does not preclude the later submission of another ordinance under section 4 or 5 of this chapter seeking membership for the county in an existing commission.
