Explanation of Local Expenditures: This bill's provisions may result in an increased cost to the city should they decide to hire an appraiser. Hiring one full-time appraiser to conduct appraisals each year is estimated to cost roughly \$62,000 a year for salary and benefits. This estimate is based on the average salary of county assessment specialists for Lake County. Fiscal expenditures for this role could be decreased if the city chose to hire a part-time or contracted appraiser instead of a full-time employee.
