3       **"(e) In any integrated resource plan filed with the commission**  
4       **under 170 IAC 4-7 after December 31, 2029, an electric utility must**  
5       **include an analysis of the potential for surplus interconnection**  
6       **service to meet immediate needs for capacity and energy at**  
7       **facilities owned by the electric utility. In performing the analysis**  
8       **required under this subsection, an electric utility shall assess the**  
9       **potential use of surplus interconnection service at utility owned**  
10       **facilities with surplus interconnection service greater than**  
11       **twenty-five (25) megawatts. In addition, the electric utility may**  
12       **solicit information concerning the potential use of surplus**  
13       **interconnection service at third party facilities, including the**  
14       **willingness of the owners or operators of third party facilities to**  
15       **accommodate surplus interconnection service. The electric utility**  
16       **may include in its integrated resource plan the results of a**  
17       **solicitation made under this subsection to the extent that the**  
18       **electric utility receives information concerning viable opportunities**  
19       **for the use of surplus interconnection service at the third party**  
20       **facilities considered in the solicitation.**

1        **(f) In an integrated resource plan filed with the commission**  
 2        **after December 31, 2029, an electric utility may include, in addition**  
 3        **to the information set forth in subsection (e), the proposed use of**  
 4        **more than one hundred percent (100%) of the surplus**  
 5        **interconnection service at a utility owned facility or a third party**  
 6        **facility so as to facilitate the use of the entire interconnection**  
 7        **service established for the facility in a standard large generator**  
 8        **interconnection agreement, so long as the use of the proposed**  
 9        **surplus interconnection service when combined with the existing**  
 10        **used capacity does not exceed the total interconnection service**  
 11        **established for the facility in the standard large generator**  
 12        **interconnection agreement.".**
