Description of fiscal impact

HB 644 would allow Counties to employ property tax appraisers after receiving permission from the Department of Revenue. This has no direct fiscal impact to the Department of Revenue, however there may be unanticipated challenges coordinating the work and responsibilities of state appraisers and county appraisers (see technical concerns below).

FISCAL ANALYSIS

Assumptions

Department of Revenue

1. HB 644 allows counties to seek Department of Revenue (DOR) approval to hire a property tax appraiser that would work with the DOR to value property within the county.
2. This county employed appraiser would be certified through department classes and would be required to use appraisal methods approved by the DOR.
3. There is no cost to the state based on implementation for the bill.

Effect on County or Other Local Revenues or Expenditures

MACO

1. Bill does not mandate the creation of positions so a local government interested in hiring an appraiser will determine the fiscal impact.

Fiscal Note Request - As Introduced*(continued)***Technical Concerns****Department of Revenue**

1. County appraisers may violate Article VIII Section 4 of the Montana Constitution. "All taxing jurisdictions shall use the assessed valuation of property established by the state". The county appraiser is required to use DOR approved methods but is presumably working independently of the state in establishing value.
2. There are many questions involving coordination of which properties are the responsibility of county appraisers, which party is responsible for various notifications, and the ability of the department to review and check quality of county appraisal work, or recourse for deficiencies of duty. The Department would need to develop significant rules to handle these various questions not addressed in HB 644.
