17 (b) may direct the design of one or more types of skills tests. A skills test may consist of:

18 (i) a comprehensive assessment of a person's functional abilities by means of an actual  
19 demonstration of the applicant's ability to exercise ordinary and reasonable control in the safe operation of a  
20 motor vehicle; or

21 (ii) a more limited assessment of a person's functional abilities, conducted at the discretion of the  
22 department, as related to a specific physical or mental condition or conditions or a request for reexamination.
