(B) minus the FTE increase funding factor divided by the FTE decrease funding factor times the payment made to the state for the base year pursuant to 20-15-328(3)(b); and

(C) minus any one-time-only legislative appropriations in the base year minus any one-time-only legislative appropriations, except for one-time-only legislative appropriations made for fiscal year 2022, and appropriations for auditing purposes, as well as any reversion pursuant to 17-7-142 before July 1, 2023, and adjusted for actual weighted FTE as determined by the commissioner of higher education in [20-15-328 (2)];.

(b) "Base year" means the first year of the current biennium.

(c) "Concurrent enrollment" means the form of dual enrollment through which a high school student receives instruction in a community college course from a high school instructor.

(d) "CTE FTE" means the FTE derived from students in courses determined by the commissioner of higher education to be career and technical education, based on national standard course classifications. For the purposes of the community college funding formula, FTE generated from a dual enrollment CTE course must be included in the calculation of CTE FTE and not in the concurrent enrollment or early college FTE categories.

(e) "Dual enrollment" means the circumstance in which a high school student is enrolled in both the student's high school and in a community college.

(l) "General education FTE" means the FTE derived from nondual enrollment students in courses determined by the commissioner of higher education to not be career and technical education, based on national standard course classifications.

(2) It is the intent of the legislature that all community college spending, other than from restricted funds, designated funds, or funds generated by an optional, voted levy, be governed by the provisions of this part and the state general appropriations act.

(3) The state general fund appropriation for each community college must be determined as follows:

(a) For the first year of the next biennium, multiply the adjusted base by the inflationary factor for the first year of the next biennium, and to this number for each FTE category add the result of multiplying:

(i) any change in the projected weighted ~~resident~~ FTE changes for the first year of the next biennium from the actual weighted ~~resident~~ FTE in the base year; and

(ii) the FTE decrease funding factor or the FTE increase funding factor as appropriate for the first year of the next biennium.

(i) any change in the projected weighted ~~resident~~ FTE changes for the second year of the next biennium from the actual weighted ~~resident~~ FTE in the base year; and

(3) At the end of each odd fiscal year, the commissioner shall calculate the net underpayment or overpayment resulting from the underpayment or overpayment of the prior fiscal year and current fiscal year determined under subsection (2) and:
