AUTHORITY; PROVIDING A PRESCRIPTIVE LICENSE FEE; PROVIDING RULEMAKING AUTHORITY; AND

WHEREAS, doctors of chiropractic are an important, integral part of health care in Montana; and
WHEREAS, chiropractic health care has continued to evolve as education and technology have
increased to meet the demands of patient care; and

WHEREAS, there is a shortage of physicians throughout Montana, and physicians cannot currently
meet the demand in many areas of the state; and

WHEREAS, multiple health care scopes of practice continue to be expanded to meet the growing
demand in patient care; and

WHEREAS, it is important to improve consistency and continuity of patient care for all patients; and

WHEREAS, there is widespread support from many health care providers in Montana to allow for
doctors of chiropractic to have prescriptive authority; and

WHEREAS, doctors of chiropractic must send patients to other providers for nonscheduled anti-
inflammatory or muscle-relaxant drugs, when clinically indicated, before the patients are able to be seen by the
chiropractor, adding unnecessary time and cost to the health care system and to patients; and

WHEREAS, if doctors of chiropractic had the ability to prescribe nonscheduled anti-inflammatory or
muscle-relaxant drugs, a patient's health, well-being, and activities of living could be restored more quickly; and

WHEREAS, this act offers doctors of chiropractic the choice of whether to apply for an endorsement to
prescribe listed, nonscheduled drugs, but the act does not require a provider to apply for an endorsement; and

WHEREAS, the drugs authorized in this act are not considered controlled or scheduled drugs by the
United States Food and Drug Administration and are not addictive or otherwise harmful when used as directed;

1 and

2 WHEREAS, the Montana Department of Labor and the Board of Chiropractors will adopt rules for
3 chiropractors to meet the requirements of prescribing nonscheduled and noncontrolled drugs; and

4 WHEREAS, this act will ultimately allow for an optional, regulated, and limited prescriptive authority for
5 doctors of chiropractic and allow for more consistent patient care.
