**COMMENTS:**

Purpose of the bill. According to the author's office, "After serving 21 years in the United States Marine Corps, I have developed a deep, personal appreciation for our nation and the strength of the American spirit. By establishing a California Commission on the United States Semiquincentennial to plan and coordinate commemorations of the 250th anniversary of the Declaration of Independence and the American Revolution, we will highlight California's innovative progress and commitment to the American ideals, which have helped shape our nation. This is an opportunity for us to come together as Americans in "a bipartisan way to celebrate 250 years of the outstanding achievements of the American People."

**Background.**

July 4, 2026, marks a momentous occasion for the United States—the 250th anniversary of the Declaration of Independence. This historic milestone stands as a tribute to the nation's journey,

celebrating its remarkable achievements and unwavering commitment to liberty, democracy, and self-governance.

The Semiquincentennial offers a chance for reflection, remembrance, and a renewed dedication to the principles that have shaped the country. Through educational programs, cultural exhibitions, community gatherings, and grand parades, July 4, 2026, will unite Americans in pride and gratitude, honoring the enduring spirit of America.

**The United States Semiquincentennial Commission.** The United States Semiquincentennial Commission is the Congressional body responsible for promoting and coordinating the United States Semiquincentennial. The commission was established under then-President Barack Obama in July 2016. Its purpose is to facilitate nationwide plans for observing this significant milestone in American history. The legislation specifically designates Boston, Philadelphia, Charleston, and New York City as locations of historical significance for organizing events. These cities will play a prominent role in the celebrations. The Act directs the U.S. Government to issue commemorative coins and postage stamps, as well as commission appropriately named naval vessels, in anticipation of the Semiquincentennial.

In 2018, the 33 nonpartisan members of the commission were sworn in at Independence Hall in Philadelphia, where both the United States Declaration of Independence and Constitution were deliberated and adopted. This marked the beginning of eight years of planning and organizing for the 250th national birthday celebration. The commission's work involves shaping the narrative around this historic anniversary on a national level, ensuring that the Semiquincentennial is commemorated in a meaningful and impactful way.

As part of the commemoration efforts established by the commission, each U.S. state and territory is expected to create or designate an official entity known as a “state 250th commission” to oversee the planning and programming for the Semiquincentennial. To date, more than 40 states have established state-level commissions to organize programs marking this historic milestone. These committees will play a crucial role in ensuring that the United States' 250th anniversary is celebrated in a meaningful and inclusive way.

**In support.** TNT Fireworks writes, “We recognize that large-scale commemorative efforts often raise concerns about funding, planning, and execution. This bill proactively addresses these concerns by ensuring the commission operates solely through private contributions and federal grants—without any state general fund dollars. This guarantees that California can play a meaningful role in the Semiquincentennial without placing any financial burden on the taxpayers. This bill provides a structured, transparent planning process that will engage key stakeholders, including business, nonprofits, educators, and local governments—to ensure that the Semiquincentennial celebrations are inclusive, well-organized, and reflective of California’s diverse communities. By leveraging private sector involvement and historical expertise, this commission will ensure the state’s participation in the 250<sup>th</sup> anniversary is both fiscally responsible and deeply impactful.”
