Majority vote

SUMMARY

Declares January 2026 as Positive Parenting Awareness Month in California.

Senate Amendments

Updated the year that the Governor issued the Master Plan for Kids' Mental Health to 2022.

COMMENTS**According to the Author**

Parents and caring adults have the biggest influence on a young child's ability to thrive. Parents, caregivers, and childcare centers can have stronger relationships with children when they have the resources and support they need. By declaring January 2026 as Positive Parenting Awareness Month, we can keep the focus on how critical the mental health and well-being of parents is to the mental health and well-being of our children.
