

Date of Hearing: May 4, 2026

ASSEMBLY COMMITTEE ON RULES
Blanca Pacheco, Chair
HR 105 (Zbur) – As Introduced April 13, 2026

SUBJECT: Amyotrophic Lateral Sclerosis Awareness Month.

SUMMARY: Proclaims the month of May 2026 as Amyotrophic Lateral Sclerosis Awareness Month; and, calls upon all Americans to join in supporting ALS research, advocating for increased funding, and standing in solidarity with those affected by this relentless disease. Specifically, **this resolution** makes the following legislative findings:

- 1) Amyotrophic lateral sclerosis (ALS), also commonly known as Lou Gehrig’s disease, is a progressive fatal neurodegenerative disease in which a person’s brain loses connection with their muscles, slowly reducing a person’s ability to walk, talk, eat, and eventually breathe.
- 2) Thousands of new ALS cases are reported every year, and estimates show that every 90 minutes someone is diagnosed with ALS and someone passes away from ALS.
- 3) On average, patients diagnosed with ALS survive only two to five years from the time of diagnosis. The exact causes of ALS are unknown and there is no known cure for ALS.
- 4) People who have served in the military are more likely to develop ALS and die from the disease than those with no history of military service.
- 5) Securing access to new therapies, durable medical equipment, and communication technologies is of vital importance to people living with ALS. Clinical trials play a pivotal role in evaluating new treatments, enhancing quality of life, and fostering assistive technologies for those living with ALS.
- 6) Amyotrophic Lateral Sclerosis Awareness Month provides an opportunity to increase public awareness of the dire circumstances of people living with ALS, acknowledge the terrible impact this disease has on those individuals and their families, and support research to eradicate this disease.

FISCAL EFFECT: This resolution is keyed non-fiscal by Legislative Counsel.
