**DIGEST:** This resolution proclaims June 10, 2026, as Family Justice Center Day in California.

**ANALYSIS:** This resolution makes the following legislative findings:

- 1) An average of 10 million cases of domestic abuse are reported to occur in the United States each year, equating to 20 people per minute.
- 2) Family justice centers (FJCs) in California provide trauma-informed, coordinated, wraparound services that bring together advocates, mental health professionals, legal supports, police officers, prosecutors, doctors, nurses, chaplains, and other professionals under one roof.
- 3) FJCs in California are represented by the California Family Justice Network (CFJN), a membership organization that provides training, statewide coordination of victim services, advocacy for survivor services and support, and sharing of best practices.
- 4) California's FJCs serve more than 70,000 trauma survivors each year, with spikes in demand up more than 30 percent since the COVID-19 pandemic.
- 5) The purpose of the CFJN is to advocate for the victims of domestic violence, sexual assault, human trafficking, elder abuse, dependent adult abuse, and child abuse in the State of California, and to actively work toward the prevention of those crimes, while supporting the implementation of the provisions and intent of Section 13750 of the Penal Code, which defines family justice centers. This provision seeks to ensure "that victims of abuse are able to access all needed

services in one location in order to enhance victim safety, increase offender accountability, and improve access to services for victims”.

This resolution proclaims June 10, 2026, as Family Justice Center Day in California and recognizes the lifesaving and hope-giving work of the CFJN and its 26 member centers as they work with rape crisis centers, domestic violence shelters, human trafficking agencies, prosecutors’ offices, law enforcement agencies, and other professionals and community-based organizations to ensure that adult and child survivors of trauma can access all of their services in one setting.
